- 3 - 30 November 1961
- 4 - 22 December 1961
- 3 - 31 January 1962

705R

- 2 - 28 February 1962
- 2 - 31 March 1962

9. [redacted]

- ✓ a. Item One of the electronic rectifiers still being calibrated. This will be f^2 for delivery. Item Two still not in operating condition. Brought back rectified grids for Chris to check for adherence to quality specifications. [redacted] informed and will go out the second week of August to check further. They appear to be taking a somewhat casual approach to finishing up. Delivery still anticipated as scheduled. 25X1A
- b. Spares. [redacted] has not heard if Air Force is interested in spare parts. [redacted] has been informed but should be checked for interest.
- c. Obtained information on proposed [redacted] recon camera for high-altitude, high-speed aircraft. Will relay same to Mr. Lundahl. 25X1A
